**ALL DEPARTMENTS AND ORGANIZATIONS  
UNIVERSITY OF CALIFORNIA, IRVINE**

**RE: 2021-22 FISCAL YEAR-END CLOSE INFORMATION & DATES**

Dear Colleagues:

These year-end close instructions are intended to assist in coordinating the needs of academic and administrative departments with the requirements of the Office of the President, the University, the Accounting & Fiscal Services Department, and other service departments.

Collectively, we are required to meet the deadlines established for UCI internal close procedures and comply with deadlines set-forth by the Office of the President. To better assist departments in meeting the required deadlines during the fiscal closing process, the section under “Fiscal Closing Deadlines” has been organized by deadline dates. If your dean or other administrative officer has established deadlines prior to the ones listed, please observe them.

All departments should utilize the Quali Financial System to record financial activity as appropriate. This year’s fiscal year-end closing process will follow the same general timeline as the previous year’s schedule, with minor changes to certain cutoffs. For the campus at large, closing procedures will be completed in the June Fiscal Period (Period 12) in KFS.

**Recommended Actions**

In order to close in a timely manner, it is important that departments adhere to the cutoff dates outlined in this letter. In addition to meeting the cutoff dates, it is recommended that the following actions be taken in each campus department:

- Continue to promptly reconcile your monthly ledgers.
- Review the *KFS Suspense Account Audit Report (RUC1158)* to ensure that department salary and benefit expenses are not recorded against the KFS Suspense account (BF10002). Look for transactions posted against the KFS Suspense account and transfer them to the proper KFS accounts to ensure that these transactions are appropriately reflect in the department's financials for the current fiscal year. Salary expenses hitting the KFS Suspense account will need to be transferred via the DIRECT Retro Process (Salary Cost Transfer) by the UCPath deadline of noon on July 5, 2022, for the transactions to be reflected in the current fiscal year.
- Expenses recorded to object codes 9995 and 9999 must be transferred to more appropriate object code(s) prior to fiscal close. The Office of the President does not allow any expenses to be recorded under these object codes. Using the *Fund Summary Report (FS0150D)*, please check both the asset and liability boxes to see transactions posted to 9995 and 9999.
- Review the [Unclaimed Electronic Payments Report](#) under the "General Ledger - Campus Reports" section of KFS Decision Support to identify any unclaimed electronic payments. Use a GEC to move an unclaimed payment to the appropriate object code(s) and account(s). Ensure that all the supporting documents are attached to the GEC before submitting the GEC for approval. Departments should regularly review the *Unclaimed Electronic Payments Report* to ensure all payments are recorded properly and in a timely manner.
- Thoroughly review your May (Period 11) ledgers and make all necessary corrections and adjustments. Ensure all transactions will be processed in time to appear in June (Period 12) ledgers. Departments cannot process adjustments after the Period 12 ledger closes.
- Please ensure that all accounts and sub-accounts with balances are open in order to carry forward budgets into the new fiscal year.
- Income in Control Accounts and Recharge variances both must be budgeted and aligned for fiscal closing. Departments have the choice of budgeting and aligning Income and consolidation codes in operating accounts if they want to see aligned balances on various reports.
- Review full accounting units (FAUs) provided to campus recharge units for recurring charges to ensure accuracy and to minimize corrections.
- Recharges should be processed in a timely manner. Recharge units must ensure that all recharges are completed for the same fiscal year at fiscal close. All recharge income object codes must be appropriated to the proper operating budgetary object codes.

- Material transactions that were not recorded by the Period 12 deadline and are related to 2021-22 business must be accrued.
- If departments have any accruals for contracts & grants funds, please provide the information to Griselda Duran ([griseld@uci.edu](mailto:griseld@uci.edu)) in Contracts and Grants Accounting by July 14. Emails requesting expense accruals on C&G funds must include the following: Fund number, PO number, a brief explanation, and a copy of the invoice. Departments should not process any accruals for contracts & grants funds.
- To determine whether a transaction should be accrued or deferred for reporting purposes, UCI has established the following criteria:
  - The goods and/or services are received in 2021-22, but the expense is not reflected on the 6/30 campus ledgers (expense accrual).
  - Services are performed in 2021-22, but not billed (revenue accrual).
  - Revenue is received in 2021-22 for services to be conducted in 2022-23 (revenue deferral).
  - Expenses that are recorded in 2021-22 for goods & services that will be received or occur in 2022-23 (expense deferral).
  - The transaction value is greater than or equal to UCI's accrual/deferral threshold. **For the 2021-22 close, the threshold is \$10,000.** There are two exceptions to this rule:
    - For equipment, anything greater than or equal to \$5,000 must be accrued.
    - For plant construction costs, anything greater than or equal to \$35,000 must be accrued.

## Fiscal Year-End Close Workshops

The Accounting Office will be offering two Fiscal Close Workshop sessions on May 17 and 18. In addition, we will be offering a workshop session directed toward Auxiliary and Sales & Service Enterprises on May 18. This session will cover the same topics as the first two workshops, with additional topics unique to auxiliary and sales & service enterprises. More information and instructions for registering will be sent to campus departments via email in the near future.

- Campus departments will not be required to take any action during fiscal closing to carry forward these funds.
- All unrestricted funds are required to be in a **solvent** condition at fiscal year-end. If you are unable to resolve this occurrence, please contact the Budget Office.

### RESTRICTED FUNDS

- **Contracts and Grants** - balances will be carried forward and re-appropriated in July.
- **Gift Fund** - accounts without current activities and with small balances should be reviewed by departments and closed out.
- **Endowment Fund** balances will be carried forward and re-appropriated in July, Fiscal Year 2022-23. Funds are required to be in a solvent condition at fiscal year-end.

The remainder of this letter covers specific fiscal close deadlines. Please contact KFS Support ([kfs@uci.edu](mailto:kfs@uci.edu)) if there are circumstances or conditions that have not been addressed in this letter. Thank you for your attention to UCI's 2021-22 fiscal close deadlines – a successful close requires the participation of the entire campus.

Regards,

**Mary Ek**  
Assistant Vice Chancellor and Controller

Recharge activity that occurred in the 2021-22 fiscal year for interdepartmental recharges that are normally processed through IB, SB, or Feeder Systems, and did not make the July 8th deadline should be accrued so long as it meets threshold requirements. Departments can accrue expenses using the YERA document but should contact the Fiscal Officers and approvers as soon as they submit. Documents not Department Approved by ALL Fiscal Officers involved by 4 p.m. on July 12 will be disapproved. Note that the YERA document is an exceptional document due to errors or major recharge expenses that did not meet the July 8th deadline for all Recharge Feeder systems. A corresponding July fiscal period 01 transaction should also be created via IB or via the Feeder system, to account for the recharge reversal.

<b>July 15</b>	<b>Income Budget Alignment</b>
	<p>UCI requires all KFS control accounts (UCnnnnn) to end the fiscal year with an income variance of zero. Budgeted income on KFS control accounts must be aligned with actual income by KFS chart, account, and object.</p> <p>There is no requirement that non-control accounts (operating accounts) in KFS end the fiscal year with an income variance of zero, but if departments want to see income budgets equal actual income on FY 21-22 reports, then entries to align budgeted income must be recorded. Whether income variances are zero or not on non-control accounts, the budget carryforward process will post any budget surpluses to the unallocated budget object.</p>
<b>July 15</b>	<b>Recharge Income Budget Alignment</b>
	<p>All recharge income object codes (39xx) balances must be appropriated to the correct operating budgetary object code. Please review Fund Summary Report.</p>
<b>July 15</b>	<b>***FOR AUXILIARY AND SERVICE ENTERPRISES ONLY***</b>
